

Intel Inside®. Powerful Productivity Outside.

# Infrastructure blueprint for higher education

1.0 This is the big one. This is the place where your students take control, and start to shape their worlds.

2.0 So you need to support them in every way you can. Because they want to learn – and they want to learn at pace.

3.0 With the right technology, you can help them expand their minds and discover the true power of learning.

**The biggest benefits delivered to University of Suffolk**

Lecturers never have to stop teaching. Unplanned downtime and high demand have no effect, so lectures or seminars aren't interrupted.

**50%**  
reduction in costs

"PRIMEFLEX's key advantage is that it gives us the opportunity to remove complexity where we don't need it. So, we can concentrate on serving our students."

University of Suffolk

**SCALABILITY** to allow for future growth

- Scales to meet your needs and allows you to pay as you grow
- Supports future needs as underlying infrastructure allows integration of new technology

Scales from 25 virtual machines to 2,400 virtual machines.

**BUDGETS** are key, so minimising TCO is vital

- Reduces TCO through low operating costs
- Frees up IT resource thanks to easy management

Reduce **COMPLEXITY** with easy-to-manage IT

- Works straight out of the box because it arrives tested and integrated
- Gives you one point of contact because you get servers, storage and networking in a single enclosure
- Frees up IT resource thanks to easy management

Takes just two hours to become operational.

**ACCESS** to information and apps 24/7

- Allows easier access and control of information by creating a highly available, centralised resource
- Meets all front-end demands without affecting teaching time, thanks to a robust foundation

"Fujitsu PRIMEFLEX® is ... by far the most reliable and dependable part of our infrastructure."

**IT that works – or your money back**

We're now part of the **Server, Storage & Solutions National Agreement (SSSNA)** for Education. So, we've created a Reliability Promise: if your hardware breaks, we'll repair it – and refund you.\*

For more information on solutions for higher education, contact us on 01235 797 711.
